

Suzanne Louth
Class A, BOTP, 2022
Class Description

“The Siblings’ Picnic”

You are invited to enjoy two days with a paper cut version of the beloved “Tree of Life.” Please come join the toile children beneath a spring tree, as we stitch our way through a charming center medallion. No matter what outer border(s) you may decide to design, this piece is the perfect beginning for your next quilt project.

All the necessary fabric, patterns, and fabric transfer pens will be furnished in kits. This class includes instruction for simple reverse appliqued buds, needle turn applique, folded paper cut “transferring” onto fabric, designing with Broderie Perse motifs, and an optional demonstration of inking, to accentuate the Broderie Perse motifs.

This class may not be a “walk in the park,” but I promise the outing beneath the Tree of Life will be so much more fun, and all skill levels are welcome to come along!
